Thread: UTC Ultra, Black, 140 Denier

Tail: Black Bear Hair Fibers

Body: Chenille, Wapsi, Black Pearl, (small CPO100)

Collar: Schlappen, Purple

Long inspired by the beauty of the traditional Spey and Dee style of flies, I wanted a fly for Steelhead that was easy to tie, durable, and would catch fish. I have found it in this fly.

A few years back I was sitting at the table in Joe's Michigan cabin. Restless and unable to sleep I was thinking about the float trip we would be on later that morning. As I sipped a glass of Glen Morangie I conceived this idea. It was 4:00 AM and hence the name.

I continue to tie and fish this fly for Steelhead and Coho.
