

# Bead Head Caddis Pupa

By: Don Privett

Hook	Standard Nymph hook size 14
Bead	2.8 mm Brass bead
Thread	Tan 6/0 or 8/0
Body	tan wet fly dubbing
Thorax	2 peacock herl strands

This fly is really a 5 minute wonder, maybe even less. It is very easy to tie and very effective when fished through deep pools on a dead drift under a strike indicator.

Step 1: place the bead on the hook and start the thread behind the bead. Wrap the thread back to the bend of the hook

Step 2: Dub the body of the fly up to about half way between the bead and the bend of the hook.

Step 3: Tie in the peacock herl strands and wrap them up to the bead. Whip finish and go fishing.
