

Lynn's Moto Minnow

By: Lynn Burry

Hook	Mustad 9671 size 6
Bead	Med. Gold cone head
Thread	Black 6/0
Tail	Grey Shad marabou
Lateral Line	Peacock Angel Hair
Body	Ringneck Pheasant rump
Collar	White Chinese Hen hackle

Step 1: Pinch down the bard and slide the cone onto the hook. Lay down a thread base beginning 1/16" behind the head. Tie in the marabou tail, then the Angel Hair to form lateral lines.

Step 2: Select a Pheasant rump feather and tie it in by the tip. Palmar tightly forward. Then slide the cone head back to bend the barbs of the hackle back. Tie down soft hackle style.

Step 4: Repeat step two until the entire body is filled, using the cone head to lay each feather back and form a tight body. Alternate rump feathers to include all color variations. It should take 6-8 feathers to build the body.

Step 4: Select a white Chinese Hen neck hackle and tie in by the tip. Take two or three tight turns and tie down. Finish with a couple of half hitches. A drop of glue behind the cone is optional.
